

**CENTRAL CALIFORNIA - MORRO BAY – METOCEAN BUOYS** - “Golden State Wind LLC will be deploying two temporary Metocean buoys in the BOEM Lease Area (OCS-0564), approximately 30 miles from shore at the closest point and 53 miles northwest of Morro Bay at 35-36-12N 121-51-37W and 35-32-02N 121-48-48W. The buoys will be lit with yellow flashing lights, radar reflectors, and retroreflective coatings. The northern LiDAR buoy is equipped with AIS. The vessel Michael Uhl, Official Number 544092, will be towing the buoys to the site and deploying them in the above locations as weather allows between 5 and 30 November. The Michael Uhl will be broadcasting AIS while on these deployment operations and will be monitoring VHF channels 13 and 16 for concerned traffic. Mariners are urged to transit at their slowest safe speed, to minimize wake, and proceed with caution after passing arrangements have been made.
